# How Cycle Works

- We enter the ring by investing 3000TRX.
- Once 4 people are seated in our structure, we will complete the cycle & we will earn 9000TRX.
- Our earning 9000TRX will be divided into 2 parts as 6000TRX + 3000TRX.
- 6000TRX is the withdrawal amount
- 3000TRX will be taken automatically for reinvestment in Cycle (Re Birth)
- Reinvested ID will complete the Cycle automatically with our Down-lines and Spillover from up- lines & side up-lines, and gives us again a 9000TRX. And withdraw will be 6000TRX again & system automatically reinvest 3000TRX again.
- This reinvestment process happens Again & Again & gives us the Life Time Passive Income
- All harvesting structure Setups (100TRX, 200TRX, 375TRX, 750TRX, 1500TRX, 3000TRX, 6000TRX, 12000TRX, 25000TRX, 50000TRX, 100000TRX) operate in the same.

# RE - Activation

The one payment in matrix is intended for re – activation . Its is activation of the same matrix when the previous one is completely filled. Its is best do this automatically ,instantly after closing the previous one , so as not to miss income.

There fore , the “auto – reactivation “mode is enabled by default

If someone wants, they can disable the mode in their personal account . We provide freedom of choose, however , in this case , you will reserve 50% from funds intended for re- activation , and there will be no new cycle, if you leave it no, all 100% will be used for you re- activation.

Yours partners also have a reactivation (if they do not turn if off). And they again take spot in your new matrix , and you reserve income.
